10/4/68

Dear Paul,

Rhoads is still Archivist. The enclosed exchange should interest you and indicate how timely your suggestion on PC 10 was. There is so much to forget. Such suggestions are invalu I had already prepared to ask him for the 2/12 file. The really interesting thing here is that he makes no suggestion of anything of which I already have a copy!

Because there was such an executive sessionx and because of the subject matter, having no transcript is even more culpable. Ward and Paul could have supplied a stenographer, as could the Department of Justice or, in a pinch, Congress, which has its own. Even a tape recorder could have been used. That was one of the most histroic of all governmental deliberations. It convinces me more than I should do the book AGENT OSWALD and that the executive sessions should be part. Let us discuss this, among the many, many things.

The LA and San Diego people plan on my being there beginning 10/26 or 27, to go to San Diego 27, evening.

Sincerely,
